- Switchboard & metering alterations
- Standby generators
- Uninterrupted power supply (UPS)
- Energy management systems / power audits
- Light and power installation
- Exit and emergency lighting
- 24/7 maintenance and servicing

# INDUSTRIAL

Our technical know-how and many years of experience means that we can provide innovative solutions

Recognised as one of Mumbai's leading electrical contractors, **SunGazing Technologies** delivers high quality construction and maintenance outcomes for heavy industrial projects in Electrical Transmission and Distribution, mining, transportation and power generation sectors

+91 9969 818 414 | [info@sungazingtech.com](mailto:info@sungazingtech.com) | [www.sungazingtech.com](http://www.sungazingtech.com)

# INDUSTRIAL

**SunGazing Technologies'** technical know-how and many years of experience in this complex infrastructure space means that we can provide innovative solutions for a broad range of international clients. From design and construct, to commissioning and maintenance support, we can provide tailored electrical, instrumental and communication services to meet operational requirements.

**SunGazing Technologies'** suite of maintenance and installation services to the heavy industry sector encompasses:

- Electrical and instrumentation works
- Installation of switchgear and control systems
- Lightning protection
- Installation of switch rooms and MCC's
- Surge / overvoltage protection
- Telecommunications and fibre optics

# COMMUNICATION

Ensuring systems  
operate at peak  
performance

**SunGazing Technologies** provides flexible and cost effective voice and data telecommunication design and construction services that support domestic, commercial and industrial clients throughout the country.

As companies face the challenge of which telecommunications capabilities they need in order to support their business activities, **STPL's** team of skilled technicians engineer and design modern solutions to meet budgets and technical scope requirements.

Working in partnership with trusted vendors, **STPL** acquires and provides communication networks developing bespoke systems to deal with the increased technological demand in the ever changing business world.

**STPL** can seamlessly link design, technology, innovation and market experience to successfully deploy stable and reliable network systems. Providing continued operational support and maintenance ensures customers systems operate at peak performance.

# COMMUNICATION

**STPL's** comprehensive range of engineered design and installation solutions:

## **Structured Cabling**

- Cat 6, 6A & Copper

## **Design and Construction**

- Design, procurement and installation of fibre optic and structured cabling networks
- Design, procurement and installation of routed and switched networks
- Design, procurement and installation of server and storage hardware

## **Data Centre Construction**

- Data cabinet, server cabinet and secure cabinet installations

## **Communication Solutions**

- Mobile tower cable installations
- Coax cable grounding
- Transient overvoltage protection
- Wireless LAN installation and commissioning

## **Fibre Optics Networks**

- Outside Plant construction and commissioning
- Fibre optic splicing
- Single mode and multimode installation

# SOLAR & ENERGY

Smart, simple  
and clean energy  
saving solutions

Our Vision: To enlighten communities and businesses throughout our reach with smart, simple and clean energy saving solutions. One customer at a time

In a single hour, the sun transmits more energy to the earth's surface than the entire world consumes in a year. Given that India is fortunate enough to receive the most sunshine all year round it makes perfect sense when it comes to solar energy.

About us:

At **SunGazing Technologies**, we truly understand the importance the sun plays in preserving our way of life.

Helping customers realise the cost savings and benefits of solar power, we're passionately dedicated to preserving the environment.

**SunGazing Technologies** is fully committed to delivering clean energy solutions that are customised to serve every customer with personal service and creative installation options.

# SOLAR & ENERGY

As one of the leading EPC providers of small to mid-scale solar photovoltaic (PV) systems throughout India, **SunGazing Technologies**, provides a full array of solar photovoltaic (PV) options along with the latest inverter technology and large scale lithium battery storage solutions.

Our expert team provide:

- Engineering & Design
- Procurement
- Construction
- Commissioning
- Operations and Maintenance
- Project Feasibility Analysis
- Energy Performance Analysis, and

## Residential

Electricity prices are ever-increasing, and more homeowners are turning to solar energy to reduce their rising electricity costs, it makes perfect to make the switch to solar. Whether your goal is to save money on your electric bill or simply reduce your carbon footprint, **STPL** has a residential solar power solution that meets your energy-saving needs. We design and install solar panel and battery storage systems for homes all over the Country.

## Commercial

For industrial, commercial, retail and public entities, electricity costs are among the top operational expenses and unfortunately, these cut directly into bottom line profits. **STPL's** broad experience and unique capabilities allow us to take on challenging solar PV projects.

## How do you help the environment?

For every 10 kW of Solar on your roof, you reduce emissions equivalent to:

- 12 tons of CO2 every year
- Planting 600 mature trees
